ARMY TAKES NO CHANCES WITH CONCEALED GUNS IN MEXICANS' HUTS

RELIEVING MEXICANS OF THEIR GUNS.

Wherever there's the possibility of trouble in Texas owing to the possession of concealed weapons by the Mexicans, scenes like the two shown in the picture have been quite common. The photographs were taken a few days ago in Madero City, Hidalgo county, Texas. Most of the Mexicans in Texas do not love "gringos." A correspondent tells of seeing in a saloon a picture of Maximilian's execution and hearing an inmate referring to the shooting, say, "Viva Mexico; all gringos get the same."

Everything is coming along all right and new names are being signed up each day for the Marshfield excursion, according to Wm. Gahlsdorf. Without making any special effort, Mr. Gahlsdorf added the following names of those who agree to accompany the special to Marshfield, August 23: Seymour Jones, P. E. Fullerton, Fred W. Steussloff and wife, W. H. Steussloff and wife, Henry Lee and wife, Mrs. R. D. Gilbert.

The third annual picnic of the Southern Pacific employees will be held at the state fair grounds Tuesday August 15. It will be attended by employees on the road from Portland to Ashland and the number will probably be about 1500 as last year the road carried more than 1400 to the grounds. All office, shop, train and truck employees who can be spared from their work will attend. The Salem freight office will be closed that day from 10 in the morning until 4 o'clock.

Members of the Marion County Veterans association expect a large attendance from Salem at the meeting to be held at Silverton next Thursday. Those going by train will take the Southern Pacific at Commercial and Trade streets at 9 o'clock and from the depot at 9:15. As W. H. Byars, president, is out of the city the Salem delegation will be in charge of W. C. Foster, first commander. All affiliating bodies are expected to attend.

This is a prosperity prune story. Chalmers Brown of Rosedale was in the city today and reports his prospects good for 33 tons of prunes, equal to the bumper crop of three years ago. He also reports having been offered 2 cents but that he had not decided as yet to sell. He will leave tomorrow with his family for a month's vacation at Marion lake, about 20 miles east of Hoover. This lake is said to have all the beauty of Crater Lake. It is 7,000 feet above sea level.

There are two don'ts in connection with the bathing beach that will be enforced. One is "Don't stand on the bridge and watch the bathers." The other is "Don't make any pretense of being in danger of drowning or of calling for help unless actually in distress." The bridge watchmen will attend to those standing on the bridge and Mr. Wilson and Mr. Mangis on the beach have been given police authority to attend to the proper actions of those on the beach or in the water.

A. Lentz living on the Macleay road six miles east of the city reports the sale of 50 tons of loganberries, raised on a 16 acre tract. At the prevailing price of three cents a pound, he received \$20 a ton for the picking and \$2 a ton for delivery in the city. The problem now is, how much did Mr. Lentz make on his 16 acres, provided he did all his own work, and had to pay only for the picking and delivery.

The Dallas commercial club believes it rather too late in the season to undertake extensive advertising of the proposed Valley Loop according to a letter received today by Benjamin Brick, director of the Publicity and Tourist department of the Commercial club. The Dallas people are in favor of advertising and pushing the 128 mile automobile loop from Portland to Salem and return, and write that they will be glad to get in and do their share, but not until next spring.

Now that the Marshfield excursion is assured, George F. Rodgers, general chairman of all committees announces that besides the pleasure of seeing the country and traveling, the Cherrians will arrange for several ways of entertainment while on the road and while in Marshfield. A program will be prepared in definite form in order that whatever is done will be arranged for properly. The following committee will have charge of the entertaining: Dr. H. H. Olinger, chairman; Fred S. Bryson, William H. Lercene, Hal D. Patton, Larry Hofer, C. E. Albin, E. Cooke Patton, F. S. Barton and George Fox.
